

TONY DEWITT

CREATIVE TECHNOLOGIST • MULTIMEDIA PRODUCER

Elk Grove, CA • (831) 737-3112 • tony.e.dewitt@gmail.com
Portfolio: tony-dewitt.github.io • linkedin.com/in/tonydewitt • [@audioinsomniac](https://twitter.com/audioinsomniac)

PROFILE

Creative technologist across audio, design, motion and real-time 3D — nineteen years of production, twelve of them in 3D. I engineer records, build brand systems, cut video, model environments and direct generative AI as a production tool, documenting process so results are repeatable rather than lucky.

CORE SKILLS

Audio Recording • mixing • mastering • music production • sound design & world audio • Pro Tools • Logic Pro • FL Studio
3D & Real-Time Blender • Autodesk Maya (since 2013) • Unreal Engine 5 • Gravity Sketch (VR) • environment modelling • lighting • photogrammetry
Design & Motion Brand identity & logo systems • print & packaging • bilingual EN/AR layout • event and campaign graphics • motion graphics • video editing • photography
Generative AI ComfyUI (local node workflows) • ControlNet Union model patch, Canny preprocessing • Z-Image-Turbo • sketch-to-render and 3D-to-render pipelines • controlled parameter testing • output QC
Software Adobe Creative Suite (Photoshop, Lightroom, Premiere, After Effects, Illustrator) • DaVinci Resolve
Production Multi-camera studio switching • live event operations • client-facing revision workflows

SELECTED WORK

ProjectMAG — original IP, self-directed 2010 – present
World-building across concept art, 3D, real-time and audio • tony-dewitt.github.io

- Sixteen-year IP built across every medium it needs: painted world map, vehicle modelled in Maya, city layout blocked out in VR (Gravity Sketch), venue built in Unreal Engine 5, original score and sound design.
- Recovered a deleted Unreal environment by running a 2013 hand-drawn sketch through ControlNet to regenerate concept art, then rebuilding the space in UE5 from it.
- Sound design including a weapon charge-and-fire cycle modelling air displacement at distance — the report fades in behind the blast wave rather than landing with it.

Recording, Mixing & Mastering — selected credits 2013 – present
*AUDI*o* iNSOMNiAC • Los Angeles / Sacramento*

- TURBO — DakariBanz (2024): recorded, mixed and mastered all seven album tracks; engineered 30+ songs across two years, released as the album and the TURBO TAPE mixtape; drew and digitised the cover art.
- River Flo — SouLar ft. D-WiTT: co-wrote, performed, recorded, co-mixed and mastered.
- ROOTS / Lessons: wrote, performed and engineered over original production by Causmic.

Generative AI Pipeline Development — Self-Directed 2026
Documented end to end at tony-dewitt.github.io

- Built a local ComfyUI pipeline from scratch (Z-Image-Turbo, Qwen-3-4B, VAE) inside an 8 GB VRAM ceiling — below the 12 GB the ControlNet model patch is commonly documented to require.
- Ran controlled parameter studies isolating one variable at a time, publishing a process log for every piece: real settings, failures, kept/killed decisions.

EXPERIENCE

Creative Technologist & Multimedia Producer Dec 2024 – Present
*AUDI*o* iNSOMNiAC • Elk Grove, CA*

- Full-cycle visual production for clients: photography, design, 3D, animation, video editing and brand strategy under one studio identity.
- Deliver release-ready cover art, lyric videos and promotional assets with client-facing revision workflows.
- Built a photogrammetry capture and 3D reconstruction pipeline, camera capture through Unreal Engine 5.

Supervising Producer Aug 2022 – Jul 2024
The Daytime Show w/ Devarius • Hollywood, CA

- Operated the studio switcher directing live multi-camera feeds for broadcast — framing, transitions and pacing judged in real time, on air.
- Lead graphic designer for all show content; set and maintained the program's visual identity across every episode.

Promotional Representative Feb 2019 – Aug 2020
iHeartMedia • Sacramento, CA

- Captured and produced multimedia content at station events — photo, video and graphics turned around on event timelines.

Promotions Team, Graphic Lead Feb 2018 – Feb 2019
iHeartMedia • Salinas, CA

- Led graphics for station promotions; managed social media and website content.

Lead Graphic Designer & Photo/Videographer Nov 2016 – Aug 2019
RunFitted Apparel • Monterey, CA

- Shot product and lifestyle photography and video for an apparel brand; designed its logos and web assets.

EDUCATION & CERTIFICATION

The Los Angeles Film School — A.S. Audio Production, 2022 • Hartnell College — Engineering, Digital Arts minor • Dante Certified, Level 1
